

New Option For Tobacco Addiction In Holistic Market

Quit Tea LLC Has Partnered With Distributors To Provide Quit Tea, A New, Unique Option For Tobacco Addiction, To Supplement The Practices Of Chiropractors, Acupuncturists, And Holistic Healers.

LOS ANGELES, CA., July 7, 2011 – Holistic healers have long treated patients for tobacco addiction with beneficial in-office therapies, but there has never been a good product for use between office visits that didn't include nicotine replacement or pharmaceuticals, until now. Quit Tea LLC has partnered with Chiropractic Outfitters and K-Med Services to distribute Quit Tea, their natural stop smoking aid, to the chiropractic and acupuncture markets.

Since launching in May 2010, Quit Tea has been popular with chiropractors across the United States and Canada as a supplemental product to their holistic therapies, or as an option to recommend for tobacco addiction. Dr. Douglas Yost, a chiropractor in Shoreview Minnesota said "my patients love the flavor of Quit Tea, have had decreased cravings to smoke, and will definitely continue using the tea to help them quit smoking."

The treatments performed by holistic healers include cold laser therapy, acupuncture, hypnosis, behavioral modification therapy, and nutrition. Quit Tea fits into this market of in-office therapies as an effective natural product that can be used in between sessions to greatly increase quitting success. Chiropractors want to be able to recommend and provide good natural products to their patients, and for smoking cessation, there are not many out there. Recently people have been turning to the holistic practices as an alternative to pharmaceutical products like Chantix, Zyban, and nicotine replacement products. These products can help, but are expensive, have many side effects, and often provide low rates of success.

There are over 49,000 chiropractors in the United States. Having chiropractors stock to resell or provide samples of Quit Tea to their patients helps create exposure and build credibility for Quit Tea as a serious smoking cessation aid. "We quickly realized there is a big opportunity in this market, which has been lacking good options" said Matthew Bucklin, president of Quit Tea LLC.

Quit Tea is available for wholesale direct to chiropractors or through our distributors Chiropractic Outfitters and K-Med Services. For more information go to <http://www.quittea.com>.

About Quit Tea LLC

Quit Tea is a natural quit smoking aid that helps to relieve nicotine withdrawal symptoms, suppress appetite, improve lung function, detox the body, and more. Quit Tea is a product of Quit Tea LLC and has been on the market since May 2010. It is distributed and sold internationally online, and in health food stores and pharmacies across the US and Canada. Quit Tea LLC is a privately owned company based in Los Angeles, California.
